ACTS' mission is to provide funds, support and other resources to our neighbors in financial crisis, helping them to live sustainable, self-sufficient and dignified lives.

2018 IMPACT
Because of Your Commitment and Support:
310 households avoided becoming homeless and,
96% have remained stably housed!

During the fiscal year July 1, 2017 - June 30, 2018

ACTS received 1,181 referrals, a 35% increase over prior year, and provided assistance to 1,066 households.

310 households consisting of 675 individuals (275 of the 675 were under the age of 18) received a total of $234,269.14 in support services and financial assistance towards rent, electric, gas and water.

756 households, a 40% increase over prior year, who were not eligible for financial assistance, received case management services and referrals for housing counseling, financial counseling, employment, legal aid and benefits.
The City of Richmond has the highest rate of eviction (11.44%) in Virginia and the 2nd highest in the country.

Some of the root causes are: a lack of Affordable Housing for hard-working, low-income earners; lack of knowledge about Landlord and Tenants Rights, the Eviction Process; and Gentrification.

ACTS is a part of the community conversation on how to address this housing crisis and YOUR support makes this possible!

FINANCIAL ASSISTANCE
ACTS provides rent, mortgage and utility assistance for families with children, single adults and seniors, who are facing a temporary financial crisis, so they do not have to worry about where they will sleep or if they will have running water and electricity.

CASE MANAGEMENT
ACTS provides case management services along with a financial assistance payment because clients who receive case management are more likely to remain stably in their homes.

COMMUNITY RESOURCES
ACTS connects individuals and families with local community resources like; financial counseling, employment, education and benefit services that will provide them with the additional support they need.
